Tuxera Enterprise Vault is a multi-platform enterprise file-sharing solution which provides all file storage and management features under a single security management solution. It runs on Linux, Windows and Mac OS X platforms and is a solution which can be easily deployed and integrated into existing networks. Tuxera Enterprise Vault Client provides secure and quick access to all shared folders and files through a web-based interface. It can be used to control user access and edit information without ever having to directly access any files on the network. Tuxera Enterprise Vault server manages access to files and folders on your network and provides you with powerful security features such as role based access control, auditing, access auditing and groups. It can be accessed via the web through a standard web browser or through custom Windows software. * 300% file compression ratio * Never go over your quota! * No need to setup a server! * One PC can share all the files! * No manual network configuration * Works with Linux, Mac OS X and Windows * Use multiple accounts to separate personal and business data * Support multiple simultaneous logins from the same PC Keeki is the premier e-mail client for the Mac OS X platform. The application provides a powerful client to view, manage, and send email messages, and you can even use it to work with your Mac's native Mail application. It features a user-friendly interface with a large amount of customization options. Also, it provides users with most of the tools of the desktop client, like adding contacts, managing and sending email, and searching through your inbox. Customer Reviews ONKAP by ron on 09.29.2006 i use it as a part of my mac os x system. i also use it for the iPhone. ONKAP by Fernando on 08.12.2006 I have been using Keeki for a while. I love the fact that I can use it on the iPhone. There are some glitches when using it on the iPhone, but they are getting fixed. If you have problems with Keeki, send me a message. I'm here to help. ONKAP by fernando on 08.12.2006 I'm having problems with Keeki. I have a big problem with the iPhone version. For some reason, when I log in, it shows the log in screen. I've deleted the application and even the folder. It won't let me in. You need to create a new account. If you are having any problems, send me a message. I'm here to help. ONKAP by stella on 08.12.2006 I haven't used Keeki for a while. I only use it to see my mail and download mail to my iPhone
