Q: Perl: Replace a string occurrence anywhere in a file How can I replace a string anywhere in a file? I can use the following command but it will replace all occurrences of 'word'. perl -pi -e "s/word/newWord/g" file.text Any ideas how can I achieve the same in perl? PS: The string to be replaced is a constant, it is not a variable. A: You can use perl (L) like this perl -pi -e 's/(word)/(defined \$1)\$2/g' file Replacing within double quotes s// -- regex replace qr// -- regex replace qw// -- regex replace qx// -- regex replace qq// -- regex replace replacing all words s/(word)/\$1/g -- regex replace You can check here more details about perl regex matching details. Example: Input: perl -pi -e ' 0cc13bf012
