
Darksiders Crack ((NEW)) SKIDROW

So, how does Darksiders II do in comparison to the original? Well, for all its flaws and shortcoming, Darksiders looked and felt amazing on the 360. While we do have questions about the controls and action sequences, Darksiders II is still really, really fun to play. After all, exploring the magic realm of Death's dimension makes for a pretty awesome time. However, a lot of time has passed since we last stood on the shoulders of the undead horsemen, and we've had the time to look back at Darksiders as a whole.

Vigil, THQ Nordic's European PR co, says that the studio's just like the original's "influenced by 80's movies." While Darksiders II most definitely has a sense of pure, unabashed awesomeness, it also manages to channel classic titles like Ghostbusters. Darksiders II isn't the role-playing game its predecessor was. The one-button combat, zombie-filled cities, and the level design are all great, but they don't take us somewhere else. Where do you want to go from here, Vigil? The hard-cores' dream might be achieved with Darksiders 3 , but for the rest of us, maybe the party's over with Darksiders 2. Then again, maybe its story resonates with you because you're a spiritual successor to Darksiders. The one-button combat, zombie-filled cities, and the level design are all great, but they don't take us somewhere else. Where do you want to go from here, Vigil? Darksiders 3 might be the result, but for the rest of us, maybe the party's over with Darksiders 2. Doing games in the shadow of other games, though, is tough for any developer. If I wanted to play in the world of Darksiders, I already had it. So, I had to approach it differently. If I wanted to enjoy my time with Darksiders, I had to go at it with a fresh set of eyes.
